ENTRY CLAREMONT

ARCHITECT EXCLUSIVE RESIDENCE

winner

A striking stone entry feature at the portico makes an early statement about the style and quality that can be expected of this executive residence. Extensive use of travertine floor tiles throughout the main entrance gallery provides a feeling of welcoming warmth and sophistication. The multi level ground floor creates further interest through to the open planned living areas. The deluxe upstairs master bedroom is cleverly segregated from three further queen sized bedrooms. A five star master ensuite with luxury spa separates the opulent master bedroom with a large glass window and the walk through robe has enough storage for even the most avid collector of fine fashion and shoes.
