CREATIVE COLLABORATION

Exclusive Residence believes the true 'magic' that creates an outstanding custom designed residence of architectural merit comes from the collaboration of a passionate, dedicated team of professionals (Architect/Designer, Interior Designer, Builder and their sub-contractors) all who engage constructively and co-operatively and who all recognise the Client as Principal.

Such a working environment develops trust, teamwork and fosters creativity and innovation – it's in this space where a fusion of art, architecture and building form and function coalesce to create a modern interpretation of a place and space for enhanced living.

Exclusive Residence Clients work with Perth's most talented Architects and Building Designers.

Step inside & live in your home before it is built with 3D Virtual Reality

With every Exclusive Residence, within our design process (and at NO ADDED COST to our normal Design Fee), we offer to you the experience of immersing yourself into a virtual world to walk and explore every finer detail and selections of your home design in photo-real 4K quality.

For some, they find it difficult to envision space and volume from a 2 dimensional plan. From our VR Studio, in your virtual world you can experience these spaces, select and walk-around furniture items, see the views from your windows and the effect of light and shade at different times of the day. If you wish to make changes like floor finishes, colours or kitchen layouts, these can be transformed before your eyes in real-time.

With 3D VR you can avoid costly mistakes early and be confident with your design and interior decisions.

EXCLUSIVE RESIDENCE. LUXURY WITH EXPEDIENCY
